GROUP CLASSES

SIX CLASSES. ONE PLAN.

Every class is capped at 12 and run by a qualified coach. Weights are scaled to you, so a first-timer and a competitive lifter can train side by side.

01 BARBELL STRENGTH
Squat, bench, deadlift and press on a 12-week block. You log every set and the numbers go up.
HARD · 60 min

02 ENGINE
Rower, bike and sled intervals. Short, honest conditioning that builds a bigger gas tank.
MAX · 45 min

03 KETTLEBELL FLOW
Swings, cleans, get-ups and carries strung into flows. Builds grip, hips and shoulders that last.
MODERATE · 45 min

04 FOUNDATIONS
Four-week starter course for new lifters. Learn the main lifts properly before you load them.
EASY · 60 min

05 HYBRID
Half strength, half conditioning. The class to pick if you only make it in twice a week.
HARD · 50 min

06 MOBILITY & CORE
Hips, thoracic spine and trunk work. Slower pace, real progress on the positions that hold you back.
EASY · 40 min
