FARM TO CUP

We know who grew it, and what they were paid.

Most of our green coffee comes from the same nine farms every year. We agree prices before harvest, publish them, and visit each farm at least every second year. This is how a bag gets from their drying beds to your kitchen.

01 · FARM

Picked ripe, by hand

At Finca La Esperanza, Doña Marleny's pickers go over each tree up to five times so only red cherries get picked.

HUILA, COLOMBIA · JUN–AUG

02 · PRICE

£5.90 a kilo, agreed in March

We pay for green coffee before it is picked. Last year that averaged 2.4× the Fairtrade minimum across all nine farms.

PRICE LIST PUBLISHED EVERY APRIL

03 · ROAST

12 kilos at a time

Our Probat drum roaster was built in 1964. Each coffee has its own profile, and we cup every batch before it is bagged.

KIRKSTALL, LEEDS · TUE & FRI

04 · YOUR CUP

At your door in two days

Bags go out by Royal Mail the afternoon they are roasted. Rest them for five days, then drink within six weeks.

BEST FROM DAY 5 TO DAY 42

> "Kiln was the first buyer who asked what it cost us to grow the coffee before they offered a price. They have come back every year since 2018."

BREW GUIDES

How we brew it at the roastery.

Start with these recipes, then adjust: if it tastes sour, grind finer; if it tastes bitter or dry, grind coarser.

V60 AeroPress Espresso French press

RATIO
1 : 16.7

COFFEE 15g
WATER 250g
TEMP 94°C
TIME 3:00
GRIND Medium-fine, like table salt

0:00 Rinse the paper filter with hot water and tip the water away.
0:00 Add 15g coffee, level the bed, and pour 45g water to bloom. Swirl gently.
0:45 Pour slowly in circles to 150g, keeping the water level steady.
1:30 Pour to 250g. Give the dripper one gentle swirl to flatten the bed.
3:00 Drawdown should finish around three minutes. Longer? Grind coarser next time.
