RUNNING APP · IOS & ANDROID

RUN THE PLAN. SEE THE PROGRESS.

GPS tracking, coach-written plans and weekly charts in one app.

Stride records every run with live pace and splits, gives you a training plan that fits your week, and shows how far you have come without burying you in numbers. Built for people who run three times a week, not three times a day.

FRIENDS CHALLENGE

A monthly leaderboard among people you actually know, not strangers.

FEATURES

WHAT RUNNERS ACTUALLY USE

We interviewed 40 club and solo runners before drawing a single screen. These six features came up in nearly every conversation.

ACCURATE GPS

Dual-frequency location with smoothing that keeps your route on the path, even between tall buildings.

PLANS THAT ADAPT

24 plans from first 5K to marathon. Skip a session and Stride reshuffles the week instead of piling it on.

AUDIO PACE CUES

A short voice update each kilometre with split, average pace and whether you are on target. Phone stays in your pocket.

WEEKLY PROGRESS

One chart per week, distance and pace side by side. Compare any two weeks without opening a spreadsheet.

FRIENDS CHALLENGES

Set a monthly distance goal with your club or group chat. Private by default, no public leaderboards.

WORKS OFFLINE

Runs record without signal and sync when you are back. Battery use averages 6% per hour on recent phones.

DESIGN NOTES

DARK APP, LOUD NUMBERS

Most runs start before sunrise or after work. A dark interface saves battery on OLED screens and keeps glare down, while one bright volt accent marks what matters right now.

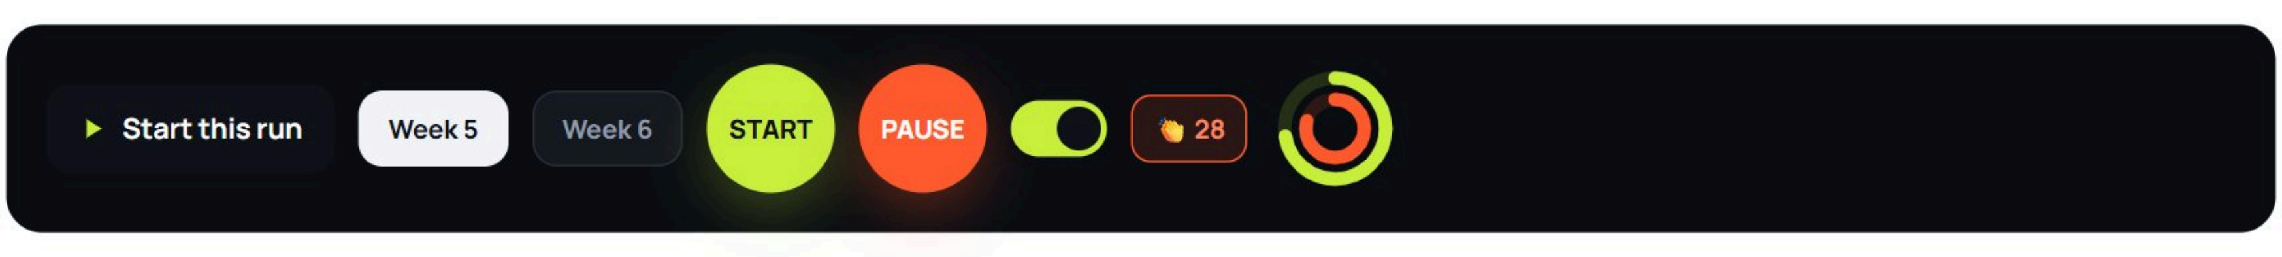
COMPONENTS

Every touch target is at least 48 px, because gloves and sweaty thumbs are real. Rings, chips and buttons share an 8 pt grid and two corner radii: 12 for controls, 20 for cards.



USER FLOW

FROM INSTALL TO FIRST 10K

Onboarding takes under two minutes. We cut it from nine screens to four after testing with new runners.

01
Tell us your week
Pick your running days and how long you usually have.

02
Choose a goal
First 5K, a faster 10K or a half. Stride suggests a plan.

03

The final week tapers off so you start fresh, not tired.

RATINGS

RUNNERS KEEP RUNNING 4.8

★★★★★ 38,400 ratings · 71% still active after 8 weeks

★★★★★

"I'd started couch-to-5K three times and stopped every time. The plan moving my missed runs instead of nagging me is why I finished this time."

RH **Rachel H.**
First 5K plan, Bristol

★★★★★

"The km audio cue is short and actually useful. Split, pace, done. My route by the canal finally shows up on the path, not in the water."

MD **Marcus D.**
Half marathon plan, Manchester

★★★★☆

"Our running group does the monthly challenge every month now. Would love a treadmill mode, but the outdoor tracking is the best I've used."

AN **Aisha N.**
Club runner, Glasgow

YOUR FIRST RUN IS FREE. SO IS THE EIGHTH WEEK.

Every plan, GPS tracking and weekly progress are free. Stride Plus adds heart-rate zones and offline maps for £4.99 a month.
