NOW WITH LIVE SLACK CHECK-INS

Goals that update themselves. Teams that stay aligned.

Fluxboard pulls live numbers from the tools you already use and pins them to your OKRs. No more spreadsheet Fridays. Just one board everyone actually opens.

PRODUCT

One board. Every goal. Always current.

Pick a view to see how Fluxboard replaces the weekly scramble for numbers.

Goals that track themselves

Link any key result to a live metric. Progress moves when the number does.

Every source, one place

Stripe, HubSpot, Postgres, Jira and 60+ more, synced every minute.

Check-ins without meetings

Owners post a two-line update in Slack. Fluxboard turns it into a weekly digest.

Goal	Linked	Status
Reach $2.4M ARR	Linked to Stripe · Priya Raman	On track
Cut onboarding to 3 days	Linked to Postgres · Diego Alvarez	At risk
Ship SSO for enterprise	Linked to Jira · Mei Tanaka	On track
NPS above 50	Linked to Delighted · Sam Okafor	New data

HOW IT WORKS

Live in an afternoon.

No data team required. If you can write a goal, you can set up Fluxboard.

01

Connect your sources

Sign in to Stripe, HubSpot or your warehouse. Fluxboard maps the common metrics for you.

02

Write goals in plain English

"Grow weekly actives to 60k." Pick the metric, set the target, assign an owner. Done.

03

Share one link

Pin the board in Slack or on a TV. Everyone sees the same live numbers, all quarter.

2,300+	6 hrs	94%	60s
teams running their quarter on Fluxboard	saved per manager, per week, on reporting	of owners check in weekly, vs 41% before	from a deal closing to the board updating

CUSTOMERS

Fewer status meetings. Better quarters.

> "We killed our Monday metrics meeting in week two. The board just tells us where we are, and we spend the hour on what to do about it."

HL **Hana Lindqvist**
COO, Northwind Logistics

> "I used to spend Thursday nights copying numbers into slides. Now the board deck is a Fluxboard link."

MO **Marcus Oyelaran**
Head of Ops, Kestrel Health

> "Engineers finally see how their work moves revenue. That alone changed how we plan sprints."

SC **Sofia Castell**
VP Engineering, Bramble
